PROFESSIONAL SUMMARY

AWS Certified Cloud Practitioner and AI Practitioner, and an Information Technology graduate (June 2026) skilled at bridging business requirements and technical solutions — authoring Business Requirements Documents, designing systems, and building working prototypes from concept to deployment. Combines systems-analysis discipline with hands-on development across web, low-code, and cloud platforms. Currently pursuing the AWS Solutions Architect – Associate certification and targeting Business Systems Analyst or IT Operations roles that combine technical depth with stakeholder translation.

EDUCATION

University of Batangas — Batangas City

June 2026

Bachelor of Science in Information Technology (BSIT)

- GWA: 1.54 (1.00 highest scale)
- **Honors:** Cum Laude · Outstanding Student, College of Information and Communications Technology (2026) · Dean's Lister

PROFESSIONAL EXPERIENCE

Telectronic Systems Inc. (TSI / bedoo) — Metro Manila

Jan 2026 – Apr 2026

Product Developer / IT Intern (486 hours)

- Sole developer of a multi-tenant Condo Management System for a TSI client — ran stakeholder interviews, authored the Business Requirements Document and scope charter, and pitched the solution to the CEO for approval.
- Built the system on Google AppSheet and Apps Script with a React / Vercel web portal — role-based access for six roles, real-time notifications, payment and balance tracking, and ownership transfer with data retention.
- Engineered a proof-of-concept DragonPay-AppSheet-Xero integration via REST API and webhooks — mapped the payment flow in a DFD and developed the Apps Script bridge for automated pending-to-paid updates.
- Populated the system with 300+ contract and inventory records through the application interface, verifying accuracy across all entries.

Valley O'Ville Family Resort — Calatagan, Batangas

Aug 2023 – Present

Operations Associate (Part-time)

- Built and maintain the resort's website (online booking calendar and quote system) and digital presence — social media, Google Business Profile, and web analytics (GA4, Meta Pixel, Search Console) — to improve coordination and drive bookings.
- Maintain financial records to support day-to-day operations.

PROJECTS

AUXILIARE — Philippine Founder-Investor Ecosystem Platform

Jun 2024 – Jun 2026

Founder & Product Architect · BS Information Technology Capstone

- **Recognition:** Best Capstone Project and Best Capstone Presenter (UB CICT, 2026); 2nd Best Paper and 2nd Best Poster, 2026 UBIAN Legacy research competition.
- Defined product requirements and overall system design for a Philippine founder-investor matching platform, translating business goals into specifications across frontend, backend, and cloud.
- Led design decisions — user journeys, data modeling, and cloud service integration — and coordinated cross-functional development from concept to deployed web and mobile clients.

PisoLens — Remittance Real-Value Calculator

2026

Developer · Next.js / Vercel

- Built and deployed a web app that visualizes the real, inflation-adjusted value of the peso and overseas remittances over time — with an interactive inflation timeline and year-detail drill-downs, a remittance calculator, multi-language support, and an in-app feedback system.

- Integrated “Ask PISO Lens,” an AI chat assistant, behind a hardened API with origin, content-type, and body-size validation plus operational logging.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP, Python, SQL; familiarity with Java, C/C++

Frameworks & Libraries: React, Next.js, Laravel, Tailwind CSS

Databases: MySQL, PostgreSQL — relational design & optimization

Cloud: AWS (EC2, S3, RDS, VPC, Lambda, SES), Laravel Cloud, Vercel

DevOps & Tools: Git, GitHub, Docker, CI/CD pipelines

Platforms & Low-Code: Google AppSheet, Google Apps Script, Google Workspace, Microsoft 365

APIs & Integration: REST APIs, Webhooks, DragonPay, Xero

Methodologies: Agile / Scrum, SDLC, UML modeling, ER diagrams, DFD

Business Analysis: Requirements gathering, stakeholder interviews, BRD, feasibility studies, process mapping, technical documentation, executive pitching

Design: Wireframing, user journey mapping, information architecture, prototyping

Analytics & Marketing: Google Analytics 4 (GA4), Meta Pixel, Google Search Console, Google Business Profile

AI-Assisted Engineering: AI-augmented development & research, LLM-integrated workflows, prompt engineering

CERTIFICATIONS

Amazon Web Services

- AWS Certified Cloud Practitioner (CLF-C02) — valid
- AWS Certified AI Practitioner (AIF-C01) — Jun 2026 · valid
- AWS Academy Graduate - Cloud Architecting — Sep 2025 · 60 hrs
- AWS Academy Graduate - Cloud Foundations — May 2025 · 20 hrs
- AWS Cloud Quest: Cloud Practitioner — Oct 2025
- Fundamentals of Machine Learning and Artificial Intelligence — Dec 2025
- AWS Certified Solutions Architect - Associate (SAA-C03) — exam prep & SimuLearn labs — 2026

CompTIA & GitHub

- CompTIA IT Fundamentals+ (ITF+) — May 2025 - May 2028 · ID COMP001022801245
- GitHub Foundations — Jan 2025 - Jan 2028

Cisco Networking Academy

- Cyber Threat Management — Jul 2025
- Linux Unhatched (NDG) — Jul 2025
- Creating Compelling Reports — Jul 2024

Google (via Coursera)

- Google AI Essentials — Jul 2025
- Foundations: Data, Data, Everywhere — Jul 2024
- Ask Questions to Make Data-Driven Decisions — Jul 2024
- Crash Course on Python — Jul 2024
- Foundations of Project Management — Jul 2024
- Introduction to Relational Database and SQL (Coursera Project Network) — Jun 2024

IBM SkillsBuild

- Artificial Intelligence Fundamentals — Dec 2022
- Cybersecurity Fundamentals — Dec 2022
- Explore Emerging Tech — Dec 2022
- Working in a Digital World: Professional Skills — Jul 2023

Fortinet (Credly-verified)

- Fortinet Certified Associate in Cybersecurity — 2026
- Fortinet Certified Fundamentals in Cybersecurity — 2026
- FortiGate 7.6 Operator — 2026

Anthropic

- AI Fluency: Framework & Foundations — May 2026
- AI Capabilities and Limitations — May 2026
- Claude 101 — May 2026

Professional Development (Udemy)

- Public Speaking Mastery — Jul 2024
- Creative Writing and Teaching Diploma — Jun 2023

ACHIEVEMENTS & COMPETITIONS

- Best in Mock Interview — OJT Preparation, UB College of Information and Communications Technology Jun 2026
- Hack the Future Hackathon — 2025 Philippine Innovation Conference, Batangas City Nov 2025
- TOPCIT Level 1 Passer — 12th TOPCIT Examination Jun 2025
- IT Quiz Bee — 2025 National IT Skills Competition (via Zoom) Mar 2025
- Regional Philippine Startup Challenge — 2024 CALABARZON Regional Skills Competition, Lipa, Batangas Oct 2024
